

PAKENHAM SPRINGS PRIMARY STRATEGIC PLAN

To improve learning growth for all students in literacy and numeracy

Collectively refine, articulate and embed out learner centred pedagogical model.

Refine teacher knowledge, skill and understanding to enable deeper learning for students.

Grow instructional leadership and teacher capacity within the professional learning community

To have a safe, orderly and engaging environment where there are constructive and positive relationships between students, between staff and students and between school and parents.

Develop a co constructed school wide framework inclusive of our values that underpins our relationships and the learning environment.

Build the capacity of all staff to implement our agreed evidenced based approach to student Well Being

To strengthen student engagement in their learning and develop creative, curious and motivated learners.

Develop a school wide framework of understanding for student engagement in relation to student learning.

Refine teacher skill and knowledge to ensure teachers develop a deeply engaging learning environment for all students

To maximise school resources (human financial, time space and materials) to enable optimum implementation of school goals and priorities.

To build the capacity of staff to deliver on the key improvement strategies with the Annual Implementation Plan.

To maximise school resources (human financial, time space and materials) to enable optimum implementation of school goals and priorities.

Strategically design resource allocation to support school improvement goals and priorities.
