

TRAFFIC LIGHT

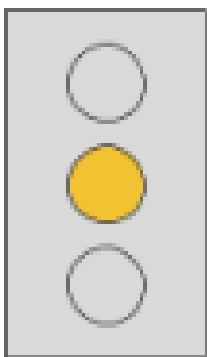

Learning

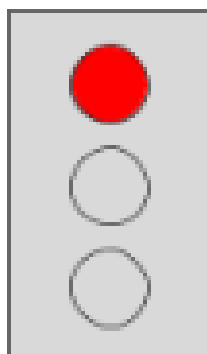

Use the traffic light icons in our Remote Learning Planner to guide you on how much assistance your child might need to complete the tasks. We hope this is helpful for planning out your day and managing the home learning schedule!

Green: Most students should be able to complete these activities independently. They may need you to set them up and explain the task first.

Yellow: Most students will need a bit of assistance to complete these tasks. They might need you to read something to them or provide some support.

Red: Most students will need an adult present to do this activity. We encourage you to watch the instructional videos with your child to know how you can help them.
